

## Barrel Clamp

Barrel Clamps - Known as "Barrel Clamp", this hydraulic accessory is utilized on lift trucks in order to clutch objects which you wish to transfer utilizing the lift truck. Typically, they're utilized so as to handle kegs, paper rolls and barrels, together with a few barrel clamp designs having the ability to revolve the load. For example, the revolving function permits a [forklift parts](#) operator to be able to insert a vertically stored paper inside the horizontal intake of a printing press.
