

Concrete Hopper

Concrete Hoppers - The self-dumping hopper attachment can automatically trigger to both unload and release as the bumper release touches the side of a dumpster. Once unloading is completed, the hopper is able to return to original upright and locked position. This particular piece of equipment is even available along with a cable which enables operation from the seat of the forklift in order to have the alternative of manually unloading the hopper. There is a locking chain provided in order to secure the hopper to the fork truck. This particular product is made with reliable and consistent robotic welds for utmost strength. The lift truck dumping hopper also has a blue powder coat finish in order to maintain durability.
